Personal Readings are generally the best place to start. You can only evolve your soul, so having a deep understanding of your talents and abilities allows you the benefit of harnessing these energies to their maximum potential. Every soul is provided talents and challenges to overcome equally. Understanding these energies is the first step to creating the life and environment you wish to experience. You may also want to get one of your partner.

Relationship Compatibility Readings are provided to help you see how you match with another soul. You can only evolve through your relationships, so it is important to harness the energy of your soul as it relates to another. A soul mate relationship is not about what you get from it, but what you contribute to it. Focusing your efforts on your contribution creates a relationship that receives energy back from your soul mate in ways you can't imagine.

The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

42% Cardinal

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

25% Fixed

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

33% Mutable

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

The Elements

25% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are outgoing and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive,

demonstrative, bold and courageous. They can also be impatient and bossy, willful and reactive, especially when they face delays or obstructions in their path.

8% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hardworking and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

42% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more proactive and self-determining you are:

The Air signs go for freedom of action and freedom of movement. Air signs need to be able to come and go at will. Their domain is the air we breathe; hence they are conduits for communication and the exchange of ideas. They are mentally alert and intellectually stimulating. Gregarious and sociable, Air signs like to be around other people. They are observant and perceptive, curious and inquisitive. They live totally in the here and now, and want to be in whatever is going on.

25% Water

Moon Opposition Moon's North Node (0z24' S)

You are motivated by the urge to establish spiritual and emotional connections with others. You judge another's character on your initial instincts. You enjoy instigating or participating in discussions and debates. You have the ability to think for yourself and to put your own ideas into action. You can also benefit from developing practical skills and 'hands on' experience. You thrive on mental stimulation and challenge and, if other things in your chart support it, will direct your energies into research or academic work. Alternatively, you can be verbally aggressive and cutting. You can also resort to sarcasm and colorful language. Minor accidents, such as cuts and bruises are possible; usually through impatience or acting before thinking.

Mercury Square Neptune (3z01' S)

You are highly intuitive and perceptive and seem to instinctively know what others may be thinking. You have an interest in metaphysical subjects and may even experience spiritual or psychic phenomena. Alternatively, your thinking can be confused or uncertain and you may experience difficulties making important decisions or communicating clearly to others. Possibly, you could be prone to self-deception or inclined to avoid facing uncomfortable realities. In certain circumstances, you can be scheming and insincere.

Mercury SemiSquare Midheaven (0z30' S)

For the most part, you are a thinker and a doer. You have the ability to advance vocationally through being clear about what you want to achieve and keeping abreast of developments in your field. You are well-suited to academic work, such as teaching or lecturing, but are equally capable as a communicator or business professional. Media work, acting or politics may appeal to you also. You are probably a good storyteller. Others value your advice because they know you keep yourself up to date and informed. Alternatively, you may experience miscommunications with family members, professional colleagues or authority figures over matters of outlook. Venus Conjunct Saturn (1z55' S)
